HCM 9.2 All 'Z' Security Roles

💡 This Security Documentation is currently being reviewed to align to recent role changes that have occurred in our production environment. When that review is complete this banner head will be removed.

Purpose: Use this document as a reference for all menu navigation paths related to each Z role established through the Security Re-Design effort.   The Z roles are designed around 3 key concept:

- ZZ roles grant add/update access to pages to perform the work.
- ZD roles grant read only access to pages to see, but not touch.
- ZC roles enable a key responsible individual or their backup to have access to Correct History functionality to pages where correct history could negatively impact the integrity of the data if not properly updated.

The links below will jump to the relevant header section that start the list of the appropriate set of roles.

- ZZ Processing Roles
- ZD Read Only Roles
- ZC Correct History Roles

In addition, at the bottom of this document FirstLink colleges will find a CTC to Z Role Cross-Walk of the roles that start with "CTC" and the relevant 'Z' roles that replace some aspect of the access from the larger CTC roles.

Audience: Managers approving security access for staff and College IT Security needing clarity on the access requested.

ZZ Careers "College Name"

The following roles have been established to facilitate college's use of TAM:

- ZZ Careers Cascadia
- ZZ Careers Olympic
- ZZ Careers Peninsula
- ZZ Careers Pierce

These roles grant access to the Recruiting Homepage, Careers Tile.

ZZ DRS Processing

- Benefits > CTC Custom > CTC Processes > DRS Data Load From Payroll
- Benefits > CTC Custom > CTC Processes > DRS Redistribution
- Benefits > CTC Custom > DRS Transaction
- Set Up HCM > CTC Custom > DRS Calendar

ZZ External Applicant

The ZZ External Applicant role is not one that will appear on the college role grant list in production. It is dynamically applied as part of the process for external applicants when applying for job using TAM. It is only ever applied manually when in Pre-Production, during User Acceptance Testing activities when testers need to grant themselves access to complete external applicant testing activities.

ZZ FWL HCM Pay Process

This role for Faculty Workload HCM pages provides access to the page where Faculty Workload Payments are loaded, to faculty contract information for approved contracts in the CS pillar and Job Data.

- Payroll for North America > CTC Custom > Paysheet Holding Update
- Workforce Administration > CTC Custom > FWL Employee Contract Data
- Workforce Administration > Job Information > Job Data

ZZ Interested Party

Access to recruitment information (job openings, recruitment alerts, interview evaluations, offers to prepare, open online job offers). Be aware that having the ZZ Interested Party role does not automatically enable the user to see every job opening. The user must be established as an Interested Party on the Job Opening and have this role in order to access information about the job opening.

ZZ Hiring Manager

Access to Recruiter Navigation Collection to Browse Job Openings, Create Applicants, Create Job Openings, Search Applicants and Job Openings, Receive Recruiting Alerts. This role is manually applied by the Local Security Administrator at colleges using TAM for all employees who are also supervisors. Be aware that having the ZZ Hiring Manager role does not automatically enable managers to see every job opening. The manager must be established as the Hiring Manager on the Job Opening and have this role in order to access information about the job opening.
