

Creating Cash Advances

Purpose: Use this document as a reference for how to create a cash advance request in ctcLink

Audience: All staff.

 A **Cash Advance** (CA) is a Travel document created to facilitate payment to the traveler in advance of or **before** travel; and can be applied across multiple Expense Reports. A Cash Advance can also be created at the time of Creating a Travel Expense.

An **Expense Report** (ER) is Travel document created **after** travel to record actual cost of travel; it may also produce a reimbursement and/or reconcile a Cash Advance. It is used for **ALL Employee Reimbursements and replaces A-19.**

 To complete a Cash Advance Request, you will need to know what Budget or Chartfield values to be added in the Accounting Details section. If unsure what values to use, please check with your supervisor.

Creating a Cash Advance Request

Navigation: Employee Self-Service > Travel and Expenses > Cash Advances > Create/Modify

 **Note:** A cash advance can also be created at the time of creating a Travel Authorization.

1. The **Cash Advance** search page displays. Depending on your role, the **Empl ID** will default into the field. If you are authorized to enter a cash advance on behalf of someone else, then you will need to look up the Empl ID first.
2. Select **Add**.
3. The **Create Cash Advance** page displays. Select the appropriate purpose from the **Business Purpose** drop-down menu.
4. Enter the appropriate **Advance Description**.

5. Select the appropriate source from the **Source** drop-down menu.
6. Enter the appropriate **Description**.
7. Enter the appropriate **Amount**.
8. Notice that the **Advance Amount** field now displays the total amount of the cash advance request.
9. If the Cash Advance needs lines added or removed, select the **Add a New Row [+]** icon and/or the **Delete a Row [-]** icon to the right of each line item to add new lines (+) or remove the specified line (-). Repeat steps 5 - 8 for each new row.

 Select the paperclip icon or the 'Attachments' link to upload supporting documents.
